PODJETIJ IC PODSKRAJNIK

Zavod za razvoj  
IC Podskrajnik

**Industrijska cona Podskrajnik** leži na zahodnem delu občine Cerknica, v Notransko kraški regiji.

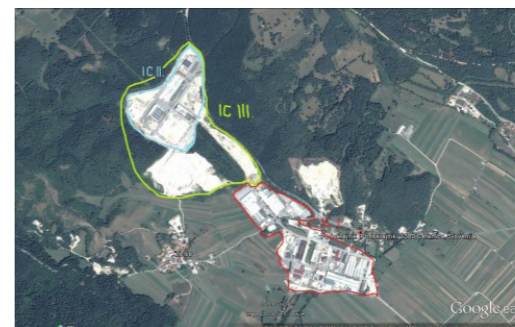

Krpanova dežela, bogata predvsem z naravnimi in kulturnimi znamenitostmi, kot so presihajoče Cerkniško jezero, Slivnica, Rakov Škocjan, cerkniški tabor, Zelška cerkev in druge, preseneča tudi z raznolikostjo in inovativnostjo lokalnega gospodarstva.

IC Podskrajnik se nahaja v naselju Podskrajnik, poleg regionalne ceste Unec- Bloška Polica. Celoten kompleks industrijske cone meri 66,8 ha in velja za eno večjih con v Sloveniji. V coni delujejo predvsem predelovalna in storitvena podjetja. Med drugimi pri nas nastajajo zahtevni elektromotorji in njeni sklopi za skupino Siemens-Bosch, izvajajo se storitve laserskega razreza in razreza s plazmo, razvija in izdeluje transportna in posebna kartonska embalaža za večja slovenska podjetja, razvijajo in izdelujejo se tudi prototipna tiskana vezja.

Cona je urejena z asfaltirano cesto, urejeno je vodovodno in kanalizacijsko omrežje, javna razsvetljava ter telekomunikacijsko omrežje. Cona je oddaljena približno 5 km od AC, 2 km od železnice in 45 km od Ljubljane. Mednarodno letališče je oddaljeno 62 km, pomorska luka Trst pa 72km. Najbližji mednarodni mejni prehod s Hrvaško je Babno Polje, ki leži 33 km stran.

### **Prostorsko IC Podskrajnik delimo na tri dele in sicer:**

1. IC Podskrajnik I., ki obsega staro delujočo cono na 27,1 ha površine. Obstoječa cona je polnozasedena, v njej pa deluje preko 70 podjetij različnih strok, med njimi tudi večja, uspešna podjetja kot so EBM papst Slovenija, Eurobox d.o.o., skupina Elgoline d.o.o. ter druga manjša podjetja.
2. IC Podskrajnik II. je novozgrajena cona v letu 2006 in obsega dodatnih 13,8 hektarov površine, od tega 4 ha prostih površin. V novi IC delujejo predvsem predelovalna in trgovska podjetja kot so Fragmat d.o.o., Megadom d.o.o., Alpod d.o.o., Alumar d.o.o., ter druga.
3. IC Podskrajnik III. je predvidena širitev cone, v velikosti 25,9 ha površine. Površina se nahaja med staro in novo IC in predvideva povezavo obeh con.

Podjetje EUROBOX d.o.o. je proizvodno podjetje, ki se ukvarja z izdelavo kartonske embalaže. Program obsega izdelavo transportne, izsekane in kaširane embalaže, poleg tega pa izdelujemo tudi posebne izdelke, ki so plod našega razvoja. V skupino posebnih izdelkov spadajo kartonske palete, posebni kartonski vogalniki in potiskani displeji. Podjetje ima 25-letno tradicijo delovanja in je samostojni proizvajalec embalaže iz valovitega kartona. Naša konkurenčna prednost je v fleksibilnosti, širokem spektru izbire materialov in v individualnem pristopu do malih in velikih porabnikov embalaže. Imamo visok nivo znanja in nudimo možnost razvoja novih izdelkov. Prepoznavnost naših kupcev in njihove embalaže je eno od poslanstev našega podjetja. Naše sodelovanje s kupci nam je v ponos, saj vemo, da imamo z vsakim od njih dober in pošten odnos. Vsakemu lahko tudi spodleti, vendar pa mi ne bežimo pred napakami, ampak jih rešujemo. Naši embalaži in odnosu z našimi kupci dodajamo nove dimenzije, že leta.

Na trgu deluje že od leta 1986. Podjetje je imelo vedno zastavljene investicijske in proizvodne cilje, ki so bili temelj razvoja. V tem obdobju je s posodobitvijo proizvodnih prostorov in opreme pridobilo veliko novega znanja na področju tehnologije izdelave in razvoja vseh vrst tiskanih vezij ter postalo eno izmed vodilnih proizvajalcev hitrih in prototipnih serij v Evropi. V letu 2000 je podjetje Elgoline združilo moči s podjetjem Intec TIV d.o.o. v Kranju, ki izdeluje tiskana vezja že od leta 1973. Poteza se je izkazala za uspešno, saj podjetji na sestrski relaciji odlično sodelujeta na kooperativnem in razvojnem nivoju. Razvojna skupina Elgoline že vrsto let sodeluje z Inštitutom Jožef Štefan. Njihovi vrhunski razvojniki skupaj s strokovnjaki iz inštituta že od začetka sodelujejo na projektu ATLAS. To je del projekta velikega hadronskega trkalnika, na katerega je podjetje Elgoline izredno ponosno. Dobili so več mednarodnih priznanj, kar jih je izstrelilo na evropski zemljevid proizvajalcev tiskanih vezij.

Elgoline Ltd deals with the manufacture of printed circuit boards, flex circuit boards and ribbon cables, the renting of its own real estate and machinery, as well as the selling of its own real estate and machinery. It was founded in 1989 – although had existed before this as a workshop. The company has always clearly set out its investment and production objectives, which have been the foundation of its development. During this period, it has modernised the production premises and equipment, and has gained new knowledge of manufacturing technology of all kinds of printed circuit boards. In 2000, the company purchased Intec TIV Ltd from Kranj, which also manufactures printed circuit boards. The company required large investments in equipment, which was a condition for its further business operation. With this purchase, Elgoline Ltd became the majority stakeholder, 51.5-percent owner, thus assuming the management of Intec TIV. The company organisation includes the assembly of the company director and the partners, which performs its duties in accordance with the statute and registration. Upon its foundation, with a 60-percent and a 40-percent share respectively.

Zgodba z imenom Pobles se začne na Notranjskem, tik ob znamenitem Cerkniškem jezeru, v osrčju notranjskih gozdov. Tu ima les že od nekdaj posebno mesto in tu je človek znal uporabiti, kar mu je narava podarjala. Na temeljih znanja in bogate tradicije se je rodil Pobles, ki je z dolgoletnimi izkušnjami in jasno začrtano vizijo postal vodilni snovalec vrhunske pohištvene opreme po naročilu. Glavno poslanstvo je tako ustvarjanje interierjev strankam, ki želijo svežih, unikatnih in vrhunskih rešitev. Prav ta preplet znanja, profesionalnega obvladovanja tehnoloških postopkov izdelave pohištva in najboljših idej dela pohištvo Pobles tako zelo kakovostno in vrhunsko. In tako zelo posebno.

The story of Pobles begins in the Notranjska region of Slovenia, right next to the famed Lake Cerknica and deep in the heart of the Notranjska forests. Wood has always played an important role in these parts and this is where man knew how to use what nature had provided. It was on the sound foundations of knowledge and rich tradition that Pobles was born and became the leading designer of bespoke high-end fitted furniture – aided by years of experience and a clearly outlined vision. The main mission is the creation of interiors for clients who want fresh, unique and top-class solutions. It is this mix of knowledge, professional mastery of the technology for manufacturing furniture and the best ideas that ensure that Pobles furniture is of the highest quality and specification. And indeed so very special.

## BROBAL D.O.O.

Podjetje BROBAL je podjetje z dolgoletnimi izkušnjami in jasno začrtanimi cilji, na trgu dobro uveljavljeno. Naše delo je odkup in prodaja železnih in barvnih odpadnih kovin, kamor spadajo tudi kabli, svinčene baterije (tudi akumulatorji), vse vrste elektromotorjev, rotorjev ... Nezanemarljiv del je odkup materiala od fizičnih oseb. Veliko nam pomeni sodelovanje z lokalnimi podjetji, čeprav poslujemo tudi s tujimi podjetji. Leta 2017 smo dejavnost zbiranja odpadnih kovin nadgradili s predelavo le teh. Prepričani smo, da je inovativen pristop z uporabo lastnega znanja, v povezavi z izkušnjami in potrebami trga, prava pot razvoja.

BROBAL is a company with long years of experience, clearly defined goals and is well-established on the market. Our work is the purchase and sale of ferrous and nonferrous metal scrap, including cables, lead batteries, all kinds of electric motors, rotors ... The negligible part is the purchase of material from individual persons. Cooperation with local companies is of great importance to us, although we also do business with foreign companies. In 2017, the activity of collecting scrap metal was upgraded by the processing of these metals. We are convinced that an innovative approach with the use of one's own knowledge, combined with the experience and needs of the market, is the right path of development.

Želimo postati vodilni v naši občini in hkrati ostati ugleden in zaupanja vreden računovodski servis, ki svojim strankam zagotavlja celostne rešitve na področju računovodstva, knjigovodstva in davčnega svetovanja. Svoje poslanstvo vidimo v razvijanju znanja na področju računovodstva in davčnega svetovanja za svoje stranke, katerih potrebe so iz dneva v dan zahtevnejše ter v dvigu kakovosti standarda iz opravljanja računovodskega in davčnega svetovanja.

Smo družinsko podjetje. Začetki segajo v leto 1985, ko smo začeli kot obrtnik avtomehaničar. Leta 1999 smo se preselili v nove poslovne prostore v industrijski coni, kjer smo postavili lasten objekt v izmeri 2500 kvadratnih metrov. Od leta 2000 smo pooblaščen trgovec in serviser vozil Ford. Naš cilj je povečati prodajo vozil Ford. Z vsakim nakupom našega avtomobila seže glas naše družbe dlje. Kakovost storitev in zadovoljstvo kupcev je pri nas na prvem mestu. S svojo odločitvijo stranke izkazujejo zaupanje našim prizadevanjem, da gradimo v življenju pot k dobremu za vse, za kupca in zase. Kakovost in prijaznost je naša vizija za varnost! V našem prodajnem salonu vsak najde nekaj zase. Ogledate si lahko ogledate celotno paleto novih Fordovih osebnih in lahkih dostavnih, športnih in terenskih vozil.

Branal d.o.o. is a family business, founded in 1992, based in Postojna. Director and owner Aleš Hace started his business journey in transport: in 1993 he bought the first truck to provide transport service mostly for the local companies. A family-run business with many years of experience and a long tradition in the international transportation of bulk (non-hazardous) cargo, logs, containers and pallet loads. We buy and sell logs and manufacture wooden chips. In our sales programme we also have non-ferrous metals.

Direktor, Jože Rožanc, ustanovitelj in lastnik podjetja, po poklicu inženir strojništva, sem si izkušnje iz področja strojništva 12 let nabiral kot operater, programer na CNC strojih, nato sem začel samostojno podjetniška pot. Podjetje je bilo ustanovljeno leta 2009 za potrebe proizvodnje električne energije (fotovoltaične celice na gospodarskem poslopju), nato smo z nakupom prvega CNC stroja leta 2012 začeli s CNC obdelavo kovin in izdelavo tlačnih in progresivnih orodij, kar je do danes glavna dejavnost podjetja. Število zaposlenih se večja, trenutno 7 zaposlenih.

Prva cerkniška mikropivovarna od leta 2018 vari pivo v lastni pivovarni na območju stare IOC Podskrajnik. Pivo izdelujemo po lastnih receptih v manjših količinah. Naše pivo je nefiltrirano, bogatega in polnega okusa. Trenutno varimo eno vrsto piva in preizkušamo recepte za novosti, ki bodo postopno prihajale na trg ter dopolnjevale in širile bogato ponudbo slovenskih kraft piv.
